county governments to improve and expand their pre-hospital emergency medical services. The funds are derived by the State from surcharges on various traffic violations.

Since 1987, Miami-Dade Fire Rescue has been responsible for the application and distribution process of the State Emergency Medical Services County Grant. The grant stipulates that municipalities are to apply for and receive funds through their respective county government or county fire department. Members of the five municipal fire rescue departments, as well as Miami-Dade Fire Rescue, conduct an annual needs assessment to formulate the Miami-Dade County application. The Director of each respective fire rescue department reviews and approves the grant work and expenditure plans included in the final grant application package.

In order to receive their respective allocation of the new grant revenues received from the State, each of the five municipal fire rescue departments submit an approved agreement to Miami-Dade Fire Rescue. The distribution of grant funds to each participating department is based on the percentage of combined total emergency medical services incidents the respective department responded to during calendar year 2011.
